

BRADLEY WALTERS, AIA, NCARB, is a practicing architect and educator. Mr. Walters is the Edward M. "Ted" Fearney Endowed Associate Professor of Architecture at the University of Florida, where he is the Associate Director of Graduate Programs for the School of Architecture. Mr. Walters teaches studio design, architectural detailing, research methods, and professional practice. His current research is centered on high-performance zero-energy buildings, within a broader context of social, artistic, and cultural production. This work engages building science, thermal/energy modelling, climatic responses, and materiality. Secondary areas of research include teaching methods, pedagogy, drawing, and visual communications.

Mr. Walters earned his Master of Architecture degree from Princeton University and a Bachelor of Design in Architecture with Highest Honors from the University of Florida. He has studied and taught at the Vicenza Institute of Architecture (Vicenza, Italy) and the UF MSAS Sustainable Design Program, based in Singapore (2011-2023).

Mr. Walters is leading a multi-year effort addressing housing in the Native Village of Tyonek, Alaska. He was the Principal Investigator for the Rebuilding Community EPA Community Change Grant, Quinlivan Net-Zero Energy House and the Solar Living House, designed for the U.S. Department of Energy's Solar Decathlon 2015 project. He was a co-principal investigator for the award-winning Project RE:FOCUS, a design-build project constructed for the Solar Decathlon Europe 2010 in Madrid, Spain. He was awarded the DCP Graduate Faculty Teaching Award in 2025, a University of Florida Term Professorship in 2017, an Excellence Award for Assistant Professors in 2014, and was recognized as "Teacher of the Year" by the University of Florida College of Design, Construction and Planning in 2011.

In practice with Hillier Architecture and RMJM, he co-directed a special projects team, where his work included the House at Leaside Farm, Solebury School Abbe Science Center, Becton Dickinson Campus Center, Walker Hall Winery, Irving Convention Center, and West Windsor Redevelopment Plan, amongst others. His work has been recognized by numerous AIA Honor and Merit Awards, and it has been published by *Architectural Record*, *Urbanism and Architecture*, *A+D*, *ARQ*, *Hinge*, and *Oculus*.

Mr. Walters serves as an independent peer reviewer of manuscripts for numerous publishers and has served as a peer reviewer for the National AIA Case Studies Initiative. He has served as an invited critic on design reviews at the Univerza v Ljubljani Fakulteta za Arhitekturo (Ljubljana, Slovenia), University of Nebraska at Lincoln, University of Virginia, and the University of Tennessee at Knoxville.

1. Project Title: **Rebuilding Community: Repairing and Renewing Homes for the People of the Native Village of Tyonek, AK**
 U.S. Environmental Protection Agency (EPA), Community Change Grants Program
 Track 1 – Community-Driven Investments for Change
 Period of Performance: 10 February 2025 – 9 February 2028 (Unilateral termination by EPA on 2 May 2026)
 EPA Cooperative Agreement Number: 5F-02J91901-0
 Lead Applicant: Tebughna Foundation
 Statutory Partner: University of Florida
 Principal Investigator: **Bradley Walters**
 Co-Principal Investigators: Mark McGlothlin and Robert Ries

This project aims to improve housing in the Native Village of Tyonek, Alaska. The project proposes major building upgrades, significant rehabilitation work, and new construction. Our project consists of three principal components: 1) Create a workforce development program in Tyonek; 2) Renovate and rehabilitate existing homes, including the careful management of hazardous waste materials present in the existing houses; and 3) Construct new high-performance homes in Tyonek. The project intends to rehabilitate as many houses as possible, with the expectation that fifteen (15) houses will be completed. If costs are lower than current estimates due to material cost reductions or efficiencies, additional houses will be renovated up to the limits of funding. Where houses have been lost to fire, structural failure, or decay, new high-performance homes will be built in their place. We expect to construct five (5) new houses.

Total Grant Amount: \$20,000,000
 UF Allocation: \$2,693,871
 UF IDC (limited to 20%): \$538,774

PATENTS AND COPYRIGHTS

- **Walters, Bradley**, Mark Andrew McGlothlin, and Anwar Sadat. 2023. *Kinetic Façade System and Method*. Serial No. 63/582,339, filed 1 January 2023. International application filed 13 September 2024 and republished 16 October 2025 under No. WO 2025/059450. This invention is a kinetic façade system and method to facilitate the movement of building components. The kinetic façade system does not require an independent power source and is limited to a small number of components, thereby minimizing the maintenance cost and reliance on independent power sources. The apparatus utilizes integrated photovoltaic (PV) panels, pneumatic pumps, and custom-designed mechanical components to create kinetic facades that respond to the movement of the sun to provide variable amounts of shading when required.

BOOK MANUSCRIPTS REVIEWED

- **Walters, Bradley.** 2013. Invited peer reviewer of *Sustainable Building Systems and Construction for Designers*, by Lisa M. Tucker. Independent peer review, assessment, comments, and recommendations were prepared for Kiley Kudrna, Editorial Assistant at Fairchild Books.
- **Walters, Bradley.** 2012. Invited peer reviewer of *Origins of Architecture*, by Laurence Keith Loftin III. Independent peer review, assessment, comments, and recommendations were prepared for Ryan P. Brown, Senior Marketing Consultant at Kendall Hunt Publishing in December 2012.

⁶⁰ All members of the Editorial Board for *Representation: Journal of the Design Communication Association* read and review approximately fifty papers included in the most recent Proceedings of the Design Communication Association's Bi-Annual Conference. Each member of the Board independently ranks articles for inclusion in *Representation* and reviewers exclude their own contributions from consideration. The Board then convenes to review the selections and make final decisions regarding work to be included in the Journal.

- **Walters, Bradley.** 2011. Invited peer reviewer of *Architecture in Formation*, by Pablo Lorenzo-Eiroa and Aaron Sprecher. Independent peer review, assessment, and recommendations were prepared for Wendy Fuller, Editor at Routledge, Taylor and Francis in May 2011.
